

**LETS**  **GET**  **YOU**

## **A 10 YEAR STRUCTURAL WARRANTY**

---

**Our 10-year warranty offer is simple.**

Based on a Minimum entry level erection of 2 posts, fascia and color bond coverings purchase, (typical carport/secure premises conversion) is now supported by a 10-Year structural warranty\*.

(\*along with every garage door and automation installation through [rollerdoorsales.com.au](http://rollerdoorsales.com.au).)

---

At [rollerdoorsales.com.au](http://rollerdoorsales.com.au) we pride ourselves in offering unique fabrication solutions to support and encase garage doors tailored to suit almost any application.

---

Whether it's an existing home, new home whatever the project, structural steel work is in our DNA and its heavy duty.

### **Why Are We Able to Warrant For 10 Years?**

*Again, the reasons are simple...*

- 1. Level of trade expertise – collectively over 50 years of trade and industry experience**
- 2. Only quality products & materials used – as a way of example:**
  - We use BlueScope Colourbond – Australian Steel not imported sub-quality products.
  - Appropriate fixings backed by manufacturer's recommendation
  - All products/materials are vetted so as to not compromise integrity/longevity of fabricated work
- 3. Our approach to operational methods (application/execution of workmanship) is completely customer focused.**
- 4. Our valued client comments and 5-star reviews have underscored the high standard we deliver enabling us to provide this unique industry first.**

---

### **Really?**

Absolutely! We view structural obstacles associated with every job we encounter as just an opportunity to create a solution that our competitors simply can't and/or won't.

As a Family owned and operated business it allows us to focus on customer satisfaction. This has resulted in testimonials which have labelled us as the "Industry Leaders in Fabrication".

Of course we love it because it is a win for both you and us.

**"That's how we Roll"**
